Lumnia Compact - Instruction Manual

This manual is based on the latest information and is provided subject to alteration. We reserve the right to change the construction and/or configuration of the product and versions at any time without obligation.

All rights reserved. No part of this document may be reproduced, stored in a database or any other retrieval system, or published, in any form or way, electronically, mechanically, digitally per photo print or microfilm or any other way without written permission from the author.

1. Safety

SAVE THESE INSTRUCTIONS

Warning

The lamps in this unit produce ultraviolet (UV) light, which can cause skin or eye damage if viewed directly for a long period. Only fit the correct type of UV lamps in the unit.
The unit shall be installed and serviced by individuals with appropriate qualifications and/or experience in accordance with national regulations in the country of operation and installation.
Disconnection from the mains is provided by means of a supply cord fitted by a plug. Protect the mains cable from damage. If the mains cable is damaged, do not use the unit. The cable must be replaced by the manufacturer, its service agent, or similar qualified persons.
Do not insert foreign objects into the unit.
Do not use an extension cable with this unit.

Caution

Only personnel with appropriate skills and training must install or service this unit.
Do not install this unit in areas where dangerous concentrations of inflammable or explosive substances may be present in the air.
Only install this product indoors in a dry location that is shielded from direct sunlight. Do not install the unit in a barn, stable, or similar location.
Install the cable such a way to prevent the exposition of the cable to UV radiation from UV Lamps.
Children or personnel with reduced physical, sensory or mental capabilities, or personnel who lack experience or knowledge, must not use this unit, unless they are supervised by a person responsible for their safety. Children must not play with this unit. The appliance is to be kept out of reach of children.

Attention

Users can perform the maintenance tasks described in this document. Users must not perform any other repairs or maintenance.

DE

WARNUNG

Die Lampen in diesem Gerät erzeugen ultraviolettes (UV)-Licht, das Haut- oder Augenschäden verursachen kann, falls man für längere Zeit direkt hineinblickt. Setzen Sie nur die richtigen UV-Lampen in das Gerät ein. Das Gerät darf nur von Personen mit entsprechender Qualifikation und/oder Erfahrung gemäß den nationalen Vorschriften des Landes, in dem das Gerät installiert und betrieben wird, installiert und gewartet werden.

Das Gerät wird über einen am Netzkabel befestigten Netzstecker vom Stromnetz getrennt. Schützen Sie das Netzkabel vor Beschädigungen. Verwenden Sie das Gerät nicht, wenn das Netzkabel beschädigt ist. Das Kabel muss vom Hersteller, von seinem Kundendienst oder von ähnlich qualifizierten Personen ersetzt werden. Führen Sie keine Fremdkörper in das Gerät ein. Verwenden Sie dieses Gerät nicht mit einem Verlängerungskabel.

VORSICHT

Nur Personen mit entsprechender Kompetenz und Schulung dürfen dieses Gerät installieren oder warten. Installieren Sie dieses Gerät nicht in Bereichen, in denen gefährliche Konzentrationen brennbarer oder explosiver Stoffe in der Luft vorhanden sein könnten. Installieren Sie dieses Gerät nur an einem trockenen, vor direkter Sonneneinstrahlung geschützten Ort. Installieren Sie das Gerät nicht in einer Scheune, einem Stall oder an einem ähnlichen Ort.

Installieren Sie das Kabel so, dass es keiner UV-Strahlung von UV-Lampen ausgesetzt ist. Kinder oder Personen mit reduzierten körperlichen, sensorischen oder geistigen Fähigkeiten oder Personen, die keine Erfahrung oder Kenntnisse haben, dürfen dieses Gerät nicht benutzen, es sei denn, sie werden von einer für ihre Sicherheit verantwortlichen Person beaufsichtigt. Kinder dürfen nicht mit diesem Gerät spielen. Das Gerät muss außerhalb der Reichweite von Kindern aufbewahrt werden.

ACHTUNG

DE Benutzer können die in diesem Dokument beschriebenen Wartungsaufgaben durchführen. Benutzer dürfen keine weiteren Reparaturen oder Wartungsarbeiten durchführen.

ES

ADVERTENCIA

Las lámparas de esta unidad producen luz ultravioleta (UV), que puede provocar daños en la piel o en los ojos si se mira en su dirección durante un periodo prolongado. Utilice únicamente el tipo correcto de lámparas UV con la unidad. La instalación y el mantenimiento deben correr a cargo de personas con la cualificación o la experiencia adecuadas, de acuerdo con las normativas nacionales del país de instalación y funcionamiento.

La desconexión eléctrica se realiza mediante el cable de alimentación equipado con un enchufe. Proteja el cable eléctrico frente a posibles daños. Si el cable eléctrico presenta daños, no utilice la unidad. La sustitución del cable debe realizarla el fabricante, un agente de servicio del mismo o personal con una cualificación similar. No introduzca objetos extraños en la unidad. No use un cable alargador con esta unidad.

PRECAUCIÓN

La instalación o el mantenimiento de esta unidad deben correr a cargo de personal con la formación y las destrezas adecuadas. No instale la unidad en áreas en las que puedan concentrarse sustancias inflamables o explosivas en el aire. Instale este producto únicamente en el interior, en un lugar seco y protegido de la luz solar directa. No instale la unidad en graneros, establos ni lugares similares.

Instale el cable de manera que evite la exposición del cable a la radiación UV procedente de las lámparas UV.

Los niños o las personas con capacidades físicas, sensoriales o mentales reducidas, o las personas que carezcan de experiencia o conocimientos, no deben utilizar esta unidad, salvo que estén supervisadas por una persona responsable de su seguridad. Los niños no deben jugar con la unidad. Debe mantenerse el aparato fuera del alcance de los niños.

ATENCIÓN

DE Los usuarios pueden realizar las tareas de mantenimiento que se describen en este documento. Los usuarios no deberán realizar ninguna otra reparación o mantenimiento.

FR

AVERTISSEMENT

Les lampes de cet appareil produisent une lumière ultraviolette (UV) susceptible de causer des dommages à la peau ou aux yeux en cas d'exposition prolongée. Veillez à exclusivement utiliser des lampes UV adaptées à cet appareil. L'appareil devra être installé et entretenu par des individus dûment qualifiés et/ou expérimentés, conformément à la réglementation nationale en vigueur dans le pays d'utilisation et d'installation.

La déconnexion de l'appareil du secteur est effectuée grâce au câble d'alimentation pourvu d'une fiche. Protégez le câble d'alimentation de tout dommage potentiel. N'utilisez pas l'appareil lorsque le câble est endommagé. Le câble doit être remplacé par le fabricant, son prestataire de services ou par toute autre personne qualifiée similaire. Aucun corps étranger ne doit être inséré dans cet appareil. N'utilisez pas de rallonge électrique avec cet appareil.

ATTENTION

Cet appareil devra exclusivement être installé ou entretenu par du personnel dûment formé et qualifié. N'installez pas cet appareil dans des endroits présentant des concentrations dangereuses de matières inflammables ou explosives dans l'air. Installez exclusivement ce produit dans un environnement intérieur, sec et à l'abri de la lumière directe du soleil. N'installez pas le produit au sein d'une grange ou d'une étable, ou tout autre endroit similaire.

Installez le câble de manière à éviter qu'il ne soit exposé au rayonnement UV des lampes UV.

Ne laissez pas les enfants, toute personne à capacités physiques, sensorielles ou mentales, ainsi que toute personne manquant d'expérience ou de connaissances appropriées, utiliser cet appareil sans supervision d'une personne responsable de leur sécurité. Les enfants ne doivent pas jouer avec cet appareil. L'appareil doit rester hors de portée des enfants.

ATTENTION

DE Les utilisateurs peuvent réaliser les tâches de maintenance décrites dans ce document. Aucune autre tâche de maintenance ou de réparation ne doit être réalisée par les utilisateurs.

NL

WAARSCHUWING

De lampen in dit toestel produceren ultraviolet (UV) licht, dat huid- of oogschade kan veroorzaken indien men gedurende een lange periode rechtstreeks in dit licht lijkt. Plaats alleen de correcte UV-lampen in het toestel. Het toestel moet geïnstalleerd en onderhouden worden door personen die over geschikte kwalificaties en/of ervaring beschikken in overeenstemming met nationale voorschriften in het land van handelsactiviteit en installatie.

De loskoppeling van het elektriciteitsnet wordt voorzien door een toevoerkabel uitgerust met een stekker. Bescherm de voedingskabel tegen beschadiging. U mag het toestel niet gebruiken indien de voedingskabel beschadigd is. De kabel dient vervangen te worden door de fabrikant, zijn onderhoudsagent, of dergelijke gekwalificeerde personen. Stop geen vreemde voorwerpen in het toestel. Gebruik geen verlengkabel met dit toestel.

OPGELET

Dit toestel mag uitsluitend geïnstalleerd of onderhouden worden door personeel dat over de juiste vaardigheden en training beschikt. U mag dit toestel niet installeren in gebieden waar gevaarlijke concentraties van brandbare of explosieve stoffen aanwezig kunnen zijn in de lucht. Installeer dit product alleen binnen, op een droge locatie en niet in het directe zonlicht. Installeer dit toestel niet in een schuur, stal of vergelijkbare locatie.

Installeer de kabel op zo'n wijze dat deze niet wordt blootgesteld aan uv-straling van uv-lampen

Kinderen of personeel met beperkte fysieke, motorische of mentale capaciteiten of personeel dat niet over de nodige ervaring of kennis beschikt, mogen dit toestel niet gebruiken, tenzij deze onder toezicht staan van een persoon die verantwoordelijk is voor hun veiligheid. Kinderen mogen niet met dit toestel spelen. Het toestel moet buiten het bereik van kinderen worden bewaard.

OPGELET

DE Gebruikers kunnen de onderhoudstaken uitvoeren die in dit document worden beschreven. Gebruikers mogen geen andere reparaties of onderhoud uitvoeren.

TR

UYARI

Üründeki lambalar ultraviyole (UV) ışık üretmekte olup, bu türde ışık doğrudan uzun süre bakıldığında cilt veya gözde hasara yol açabilir. Ürüne yalnızca doğru türde UV lamba takın. Ürün uygun yeteneklere ve/veya deneyime sahip kişiler tarafınca ülkede işletim ve kurulum açısından geçerli ulusal düzenlemelere sadık kalınarak kurulmalıdır.

Şebeke ile bağlantının kesilmesi bir fişe sahip güç kablosu aracılığıyla yapılır. Güç kablosunu hasara karşı koruyun. Güç kablosu hasar gördüğü takdirde ürünü kullanmayın. Kablo üretici, üreticinin servisi veya benzer şekilde kalifiye kişiler tarafından değiştirilmelidir. Ürüne yabancı cisim yerleştirmeyin. Bu üründe bir uzatma kablosu kullanmayın.

DİKKAT

Yalnızca uygun kabiliyete ve eğitime sahip olan personel bu ürünün kurulumunu yapmalı ve servisini üstlenmelidir. Bu ürünü havada tehlikeli konsantrasyon oranında yanabilen veya patlayıcı maddenin bulunduğu alanlara kurmayın. Bu ürünü yalnızca doğrudan güneş ışığına karşı korumalı kuru bir iç mekanda kurun. Ürünü ahır veya benzeri bir yere kurmayın.

Kabloyu UV lambalarından UV ışınına maruz kalmayacak bir şekilde yerleştirin.

Fiziksel, hissi veya mental kabiliyetleri sınırlı olan çocuklar ya da personel veya deneyim ya da bilgi eksikliği olan personel bu ürünü bu kişilerin güvenliğinden sorumlu bir kişi tarafından gözetilmedikleri takdirde kullanmamalıdır. Çocuklar bu ürünle oynamamalıdır. Sistem çocukların erişemeyeceği bir yerde saklanmalıdır.

DİKKAT

DE Kullanıcılar bu belgede açıklanan bakım işlemlerini gerçekleştirebilirler. Kullanıcılar başka herhangi bir bakım işlemi yapmamalıdırlar.

NO

ADVARSEL

Lampene i denne enheten produserer ultrafiolett lys (UV-lys) som kan forårsake skader på hud eller øyne hvis du ser på lyset for lenge av gangen. Bruk kun kompatible UV-lamper i enheten. Enheten skal installeres og vedlikeholdes av personer som har fått grundig opplæring i bruken og / eller som har erfaring med utstyret i henhold til nasjonale bestemmelser i landet hvor enheten er installert og brukes.

Enheten kobles fra strømmen ved å dra ut ledningen med støpselet fra stikkontakten. Strømledningen skal beskyttes mot skader. Enheten skal ikke brukes hvis strømledningen har skader. Ledningen må da skiftes ut av produsenten, serviceverkstedet eller annet kvalifisert personell. Ikke plasser fremmedlegemer i enheten. Ikke bruk skjøteledning på denne enheten.

FORSIKTIGHETSREGLER

Kun personer med tilstrekkelig kunnskap og opplæring skal installere eller reparere enheten. Ikke plasser enheten i områder med farlige konsentrasjoner av brennbare eller eksplosive stoffer i luften. Dette produktet må bare installeres innendørs på et tørt sted som er skjermet mot direkte sollys. Enheten må ikke installeres i en låve, stall eller lignende sted.

Installer ledningen slik at den ikke utsettes for UV-stråling fra UV-lamper. Barn eller personer med reduserte fysiske, sensoriske eller mentale evner eller personer uten erfaring eller kunnskap skal ikke bruke enheten med mindre de er under tilsyn av en person som er ansvarlig for sikkerheten deres. Barn skal ikke leke med enheten. Apparatet skal oppbevares utilgjengelig for barn.

OBS

DE Brukerne kan utføre vedlikehold som er beskrevet i dette dokumentet. Brukerne skal ikke utføre andre reparasjoner eller annet vedlikehold enn det som er oppgitt.

IT

AVVERTENZA

Le lampade in questa unità producono luce ultravioletta (UV), che può causare danni alla pelle o agli occhi se vi si è esposti direttamente per un lungo periodo. Montare nell'unità solo il tipo corretto di lampade UV. L'unità deve essere installata e assistita da persone con adeguate qualifiche e/o esperienza in conformità alle normative nazionali del paese di funzionamento e di installazione.

Lo scollegamento dalla rete viene effettuato tramite un cavo di alimentazione dotato di spina. Proteggere il cavo di alimentazione da eventuali danni. Se il cavo di alimentazione è danneggiato, non utilizzare l'unità. Il cavo deve essere sostituito dal fabbricante, dal suo rappresentante di manutenzione o da persone qualificate. Non inserire oggetti estranei nell'unità. Non utilizzare un cavo di prolunga con questa unità.

CAUTELA

Solo il personale dotato di adeguate competenze e formazione deve installare o riparare l'unità. Non installare questa unità in zone in cui potrebbero essere presenti nell'aria concentrazioni di sostanze infiammabili o esplosive. Installare questo prodotto esclusivamente in ambiente interno in un luogo protetto dalla luce diretta del sole. Non installare l'unità in un fenile, una stalla o luoghi simili.

Installare il cavo in modo tale da evitare la sua esposizione ai raggi UV delle lampade UV

Questa unità non deve essere utilizzata da bambini o persone con capacità fisiche, sensoriali o mentali ridotte, o persone prive di esperienza o conoscenze, a meno che non siano sorvegliati da una persona responsabile della loro incolumità. I bambini non devono giocare con questa unità. L'apparecchio deve essere tenuto fuori dalla portata dei bambini.

ATTENZIONE

DE Gli utenti possono eseguire le operazioni di manutenzione descritte in questo documento. Gli utenti non devono eseguire altre riparazioni o manutenzioni.

PT

AVISO

As lâmpadas desta unidade produzem luzes ultravioletas (UV) que podem provocar danos oculares ou cutâneos em caso de incidência direta durante um longo período de tempo. Instale apenas lâmpadas UV do tipo correto na unidade. A unidade deve ser instalada e mantida por indivíduos com as qualificações e/ou experiência adequada, em conformidade com os regulamentos nacionais em vigor no país de instalação e operação.

A desativação da alimentação elétrica é efetuada através de um cabo de alimentação dotado de uma ficha. Proteja o cabo elétrico contra danos. Não utilize a unidade caso o cabo elétrico esteja danificado. O cabo deve ser substituído pelo fabricante, agente de manutenção ou indivíduos igualmente qualificados. Não introduza objetos estranhos na unidade. Não utilize um cabo de extensão nesta unidade.

CUIDADO

Esta unidade apenas deve ser instalada e mantida por pessoal com a devida competência e formação. Não instale esta unidade em áreas em que o ar possa conter concentrações perigosas de substâncias inflamáveis ou explosivas. Instale este produto apenas em interiores, num local seco afastado da luz solar direta. Não instale a unidade em celeiros, estábulos ou locais semelhantes.

Instale o cabo de forma a ficar protegido da exposição à radiação UV gerada pelas luzes UV.

Esta unidade não pode ser utilizada por crianças ou indivíduos com capacidades físicas, sensoriais ou mentais limitadas, nem por indivíduos a quem falte o conhecimento ou experiência necessários para o fazer, a menos que sejam supervisionados por alguém que se responsabilize pela sua segurança. As crianças não devem brincar com esta unidade. Este dispositivo deve ser mantido fora do alcance das crianças.

ATENÇÃO

DE Os utilizadores podem efetuar as tarefas de manutenção descritas neste documento. Os utilizadores não podem efetuar quaisquer outras tarefas de reparação ou manutenção.

2. Introduction

The Lumnia Compact unit uses one ultra-violet LED driven lamps that attract flying insects that are then captured on a replaceable glue board. The Compact product is a glue board monitoring device.

While unpacking, check for any signs of shipment damage and, if found, notify both transporter and supplier in writing within eight days of receipt with full details of the damage that has occurred. Retain the equipment and packing materials for inspection. Check that all parts have been received as ordered. Make sure that all packaging is removed from the unit before use.

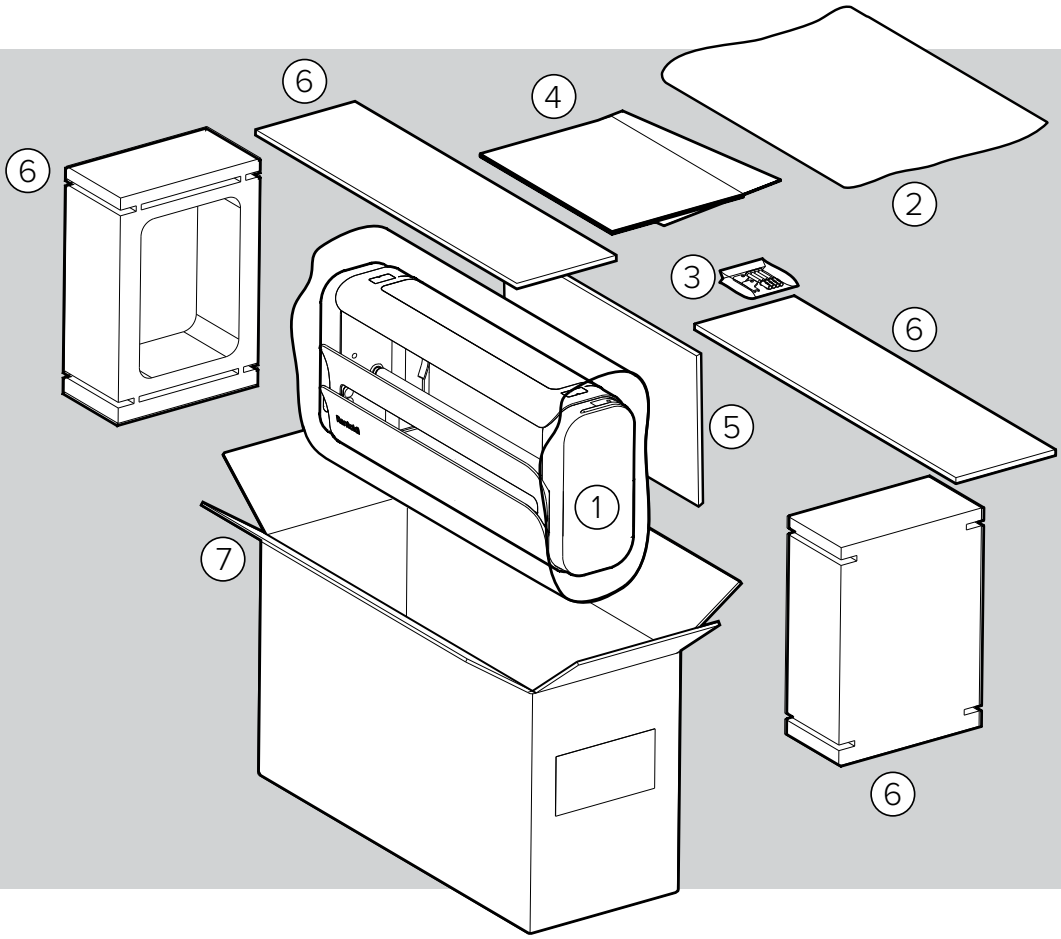

3. Equipment for Installation

A In the Box:

1. Lumnia Compact: 304855
   Also includes x1 UV-LED Lamps 304816
2. Drilling Template
3. Screw Fix Kit
4. Lumnia Manual
5. Glue Board (Black) 304858
6. Packaging
7. Outer box and Label

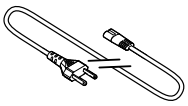

B Equipment Required for Install

A3 drilling template – Supplied in Box
Screw Fix Kit – Supplied In Box
Spirit Level advised. – Not Supplied
Power Drill - Not Supplied
Masonry Drill Bit Ø6mm - Not Supplied
Phillips Screw Driver PH2 – Not supplied

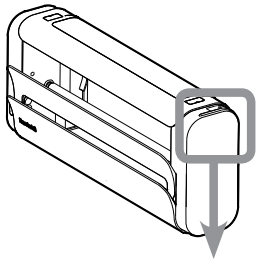

4. Installation Instructions:
Connecting the Power Source

NOTE: Cable Assembly not supplied in box. Ordered direct from Rentokil Initial to meet specific country requirements.

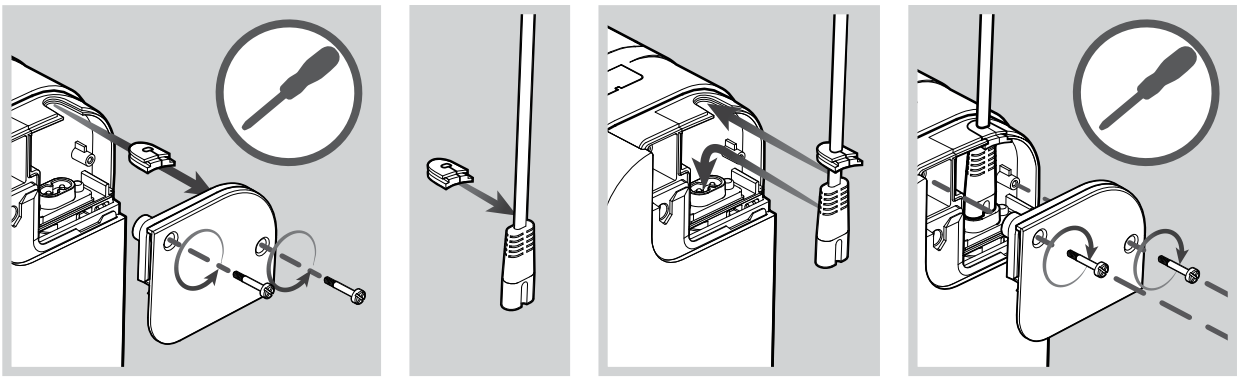

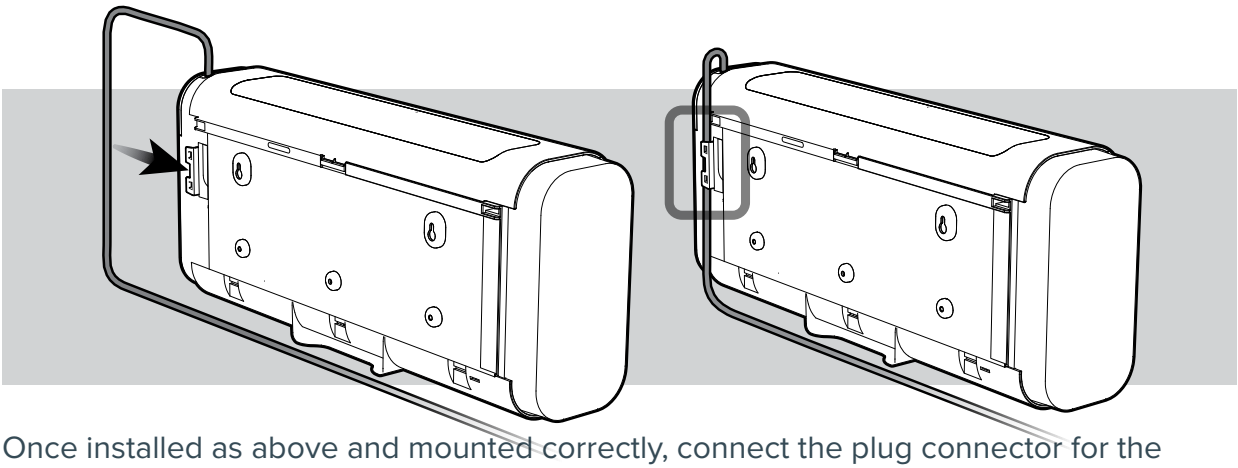

DANGER: You must NOT connect the unit into a lighting circuit.
WARNING: You must connect the power cable to a standard power socket.

DANGER: SERVICING OF DOUBLE-INSULATED APPLIANCES
In a double-insulated appliance, two systems of insulation are provided instead of grounding. No grounding means is provided on a double-insulated appliance, nor should a means for grounding be added to the appliance. Servicing of a double-insulated appliance requires extreme care and knowledge of the system and should be done only by a qualified service personnel. Replacement parts for a double insulated appliance must be identical to those parts in the appliance.
A double-insulated appliance is marked with the words “DOUBLE INSULATION” or “DOUBLE INSULATED”. The symbol (square within a square) may also be marked on the appliance.

1. Isolate the electrical supply to the power socket.
2. Check that the mains voltage displayed on the unit label is correct for your supply.
3. Check that the cable and plug connector are not damaged.

Once installed as above and mounted correctly, connect the plug connector for the cable into the power socket.

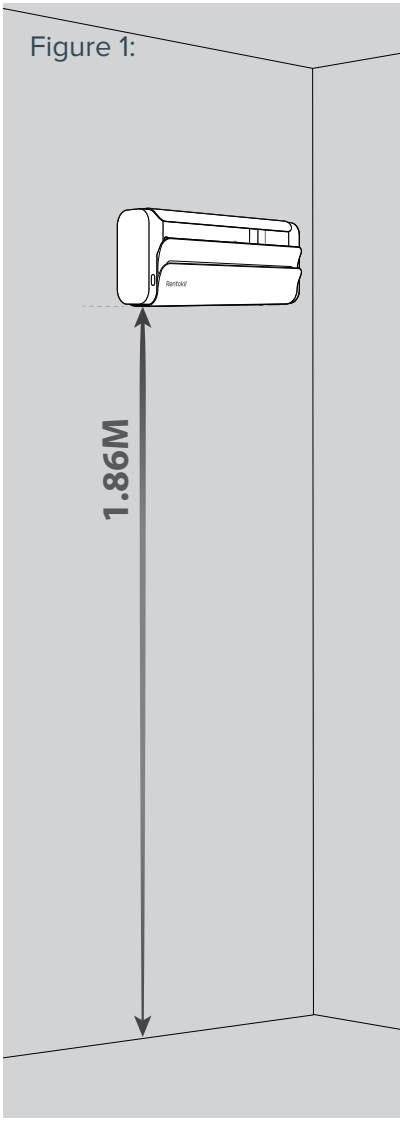

5. Positioning the Unit

Position the unit on a suitable wall at a minimum height of 1.86 metres to the bottom of the unit.

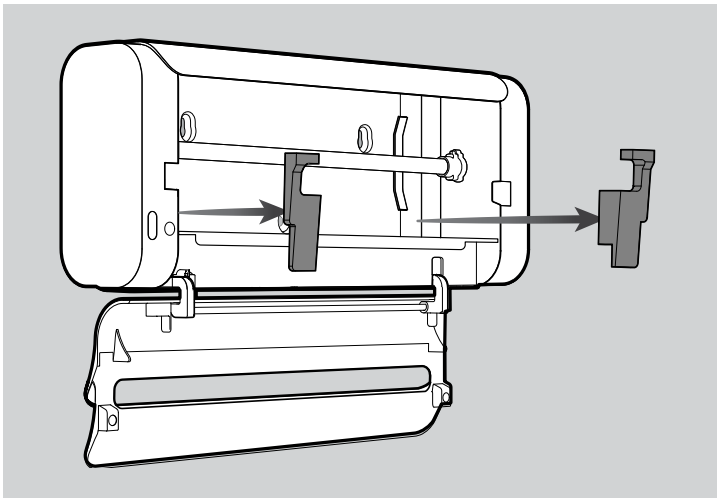

Figure 1 illustrates the suggested mounting height.

Position the unit as far as possible from sources of ambient light. Ambient light can cause inefficient capture of flying insects. Ideally position the unit so the cable entry is within 1.8 metres of an electric socket. If this is not possible the unit must be connected safely by a qualified electrician.

Figure 1:

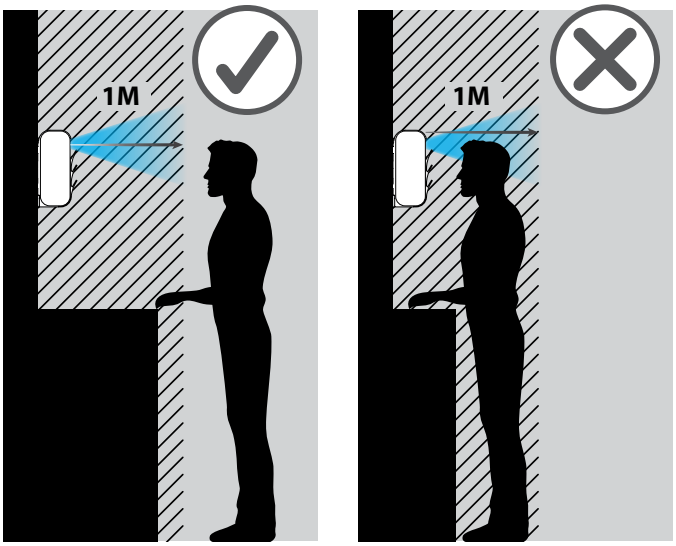

Packaging Removal
Remove transport spacers before installing Lumnia

To ensure that the product minimises risk UV exposure especially to eyes, it is recommended that the product is installed at a minimum height of 1.86 metres from the bottom of the unit and also at least 1 metre from any area that may have persons occupying for more than 4 hours in a day.

It is also recommended that the product is not installed higher than 1.86 metres to ensure that the product can be maintained by the majority of technicians without the use of a ladder.

For safety reasons, the unit contains a micro switches that disables the UV lamps if you open the Front Louvre.

Figure 2 indicates the size and space considerations for louvre cover opening sweeps at 90°.

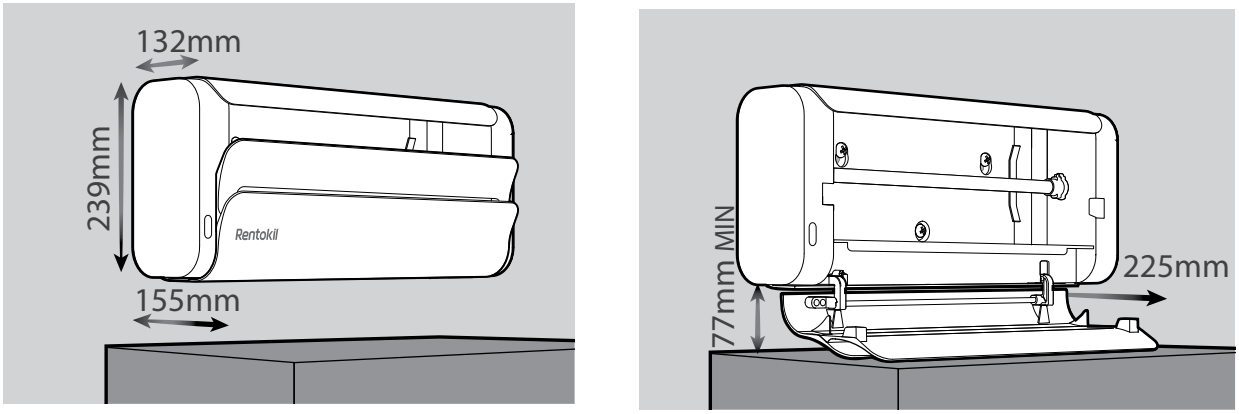

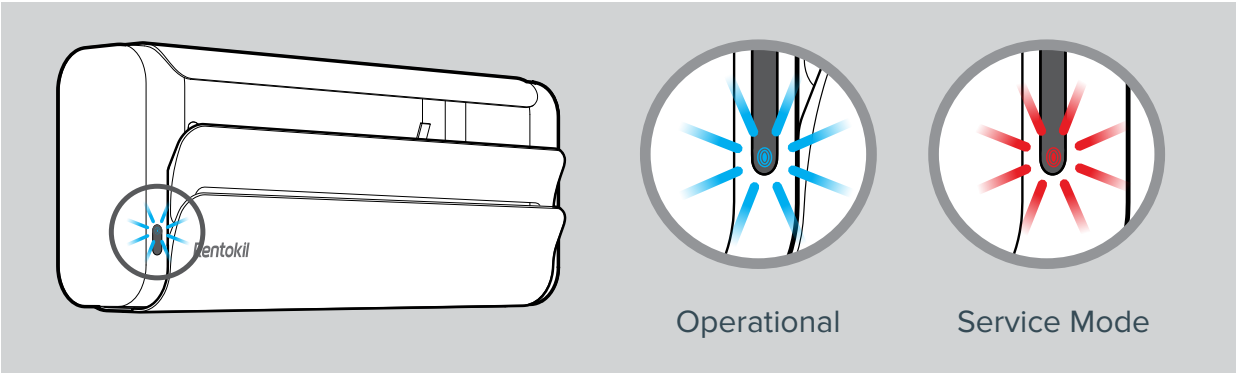

Figure 2:

DO NOT position the unit directly over areas where food is prepared, or where uncovered food is stored.
DO NOT position unit directly over sources of heat.

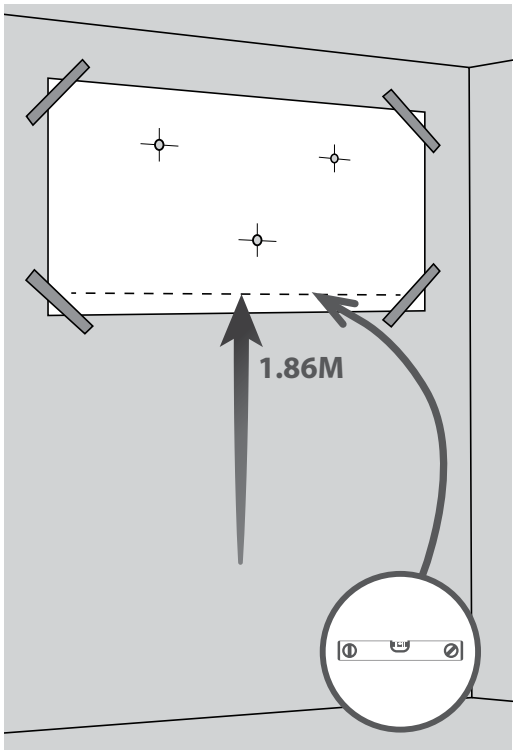

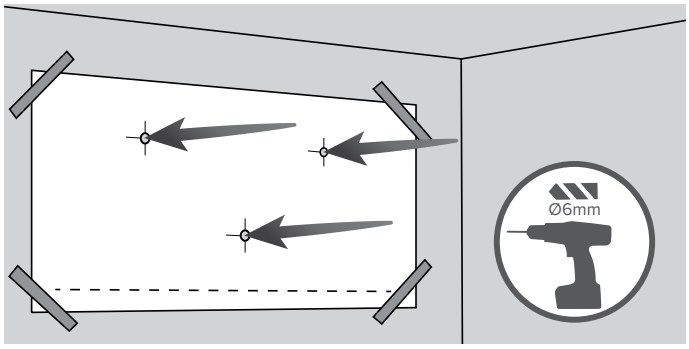

When the product is operational, the front icon will illuminate blue.
When in Service Mode or the front louvre is open the front icon will illuminate red.

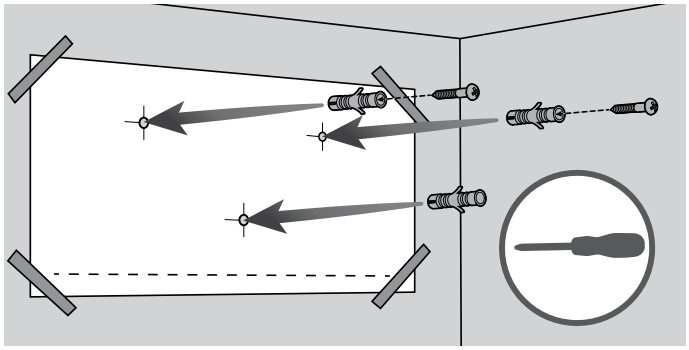

6. Positioning Guide

- Not facing entry/exit point or windows - to avoid attracting unwanted insects or competing light sources
- Avoid putting on same surface as competing light source
- Mounting on clear surface preferable to maximise UV footprint
- Maximise line of sight (i.e. Have clear line of sight from any point within coverage area away from food source or high risk area)

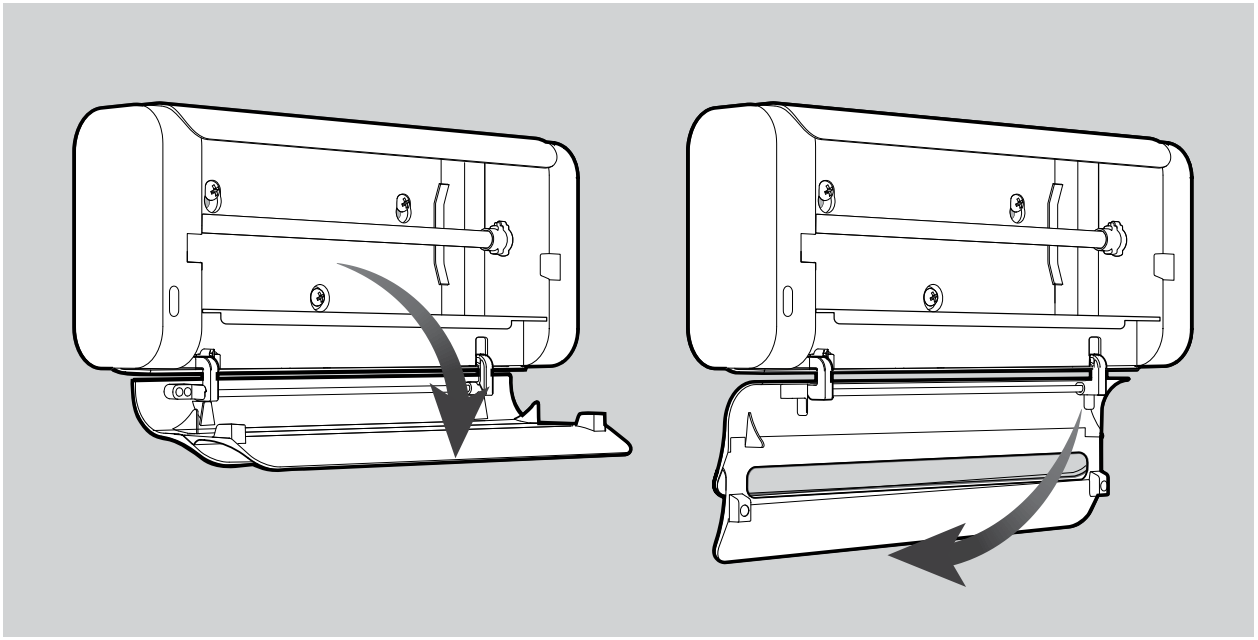

7. Installation Preparation

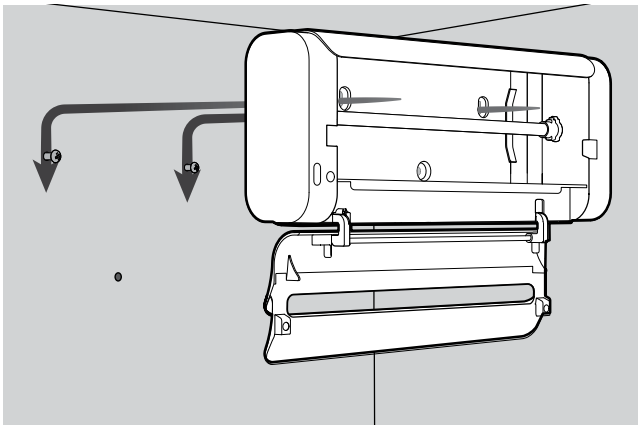

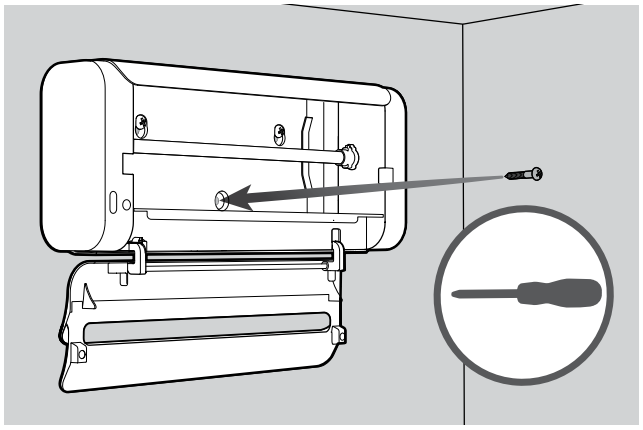

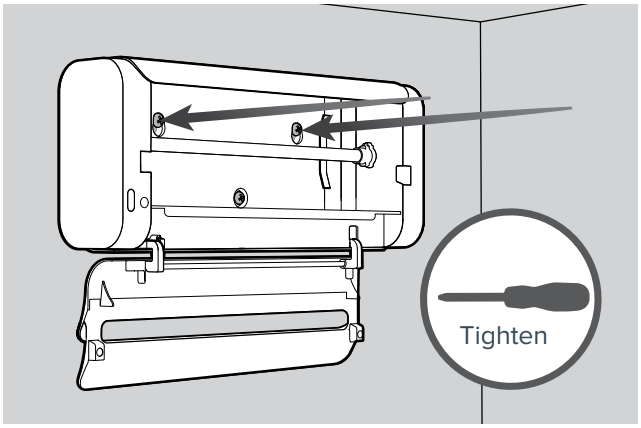

8. Opening the Louvres

9. Mounting Lumnia

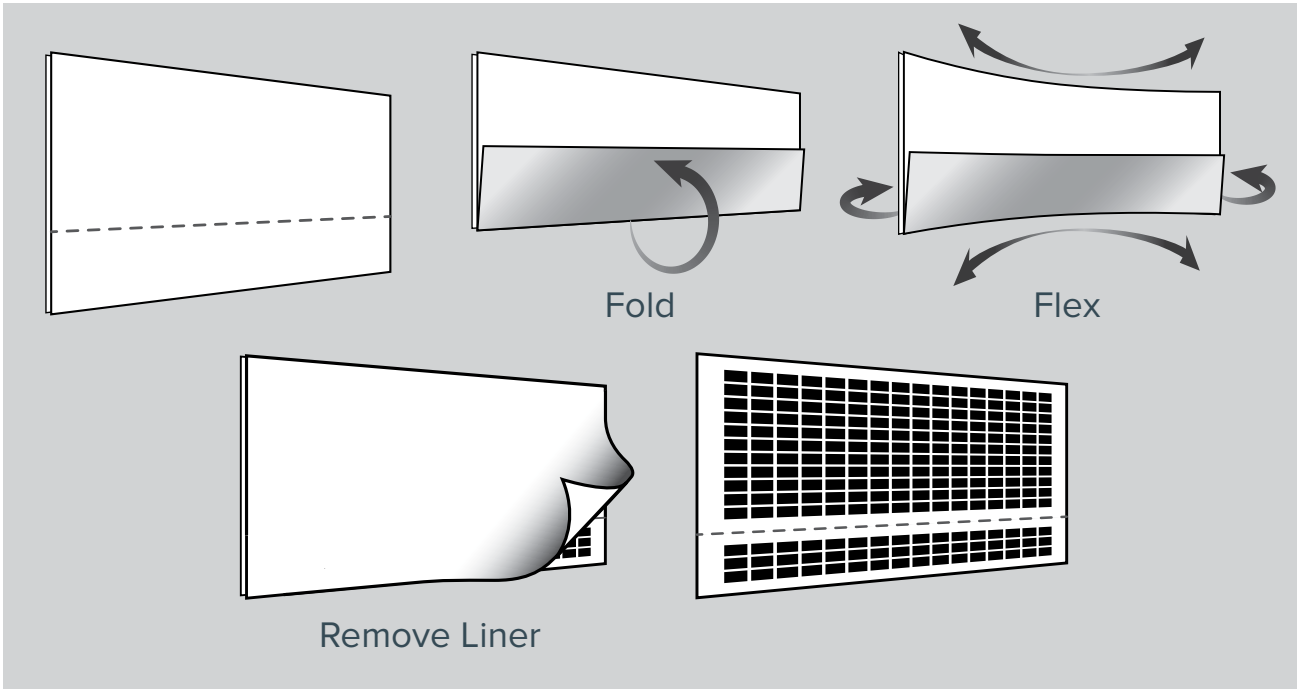

NOTE: Remove lamps before screwing

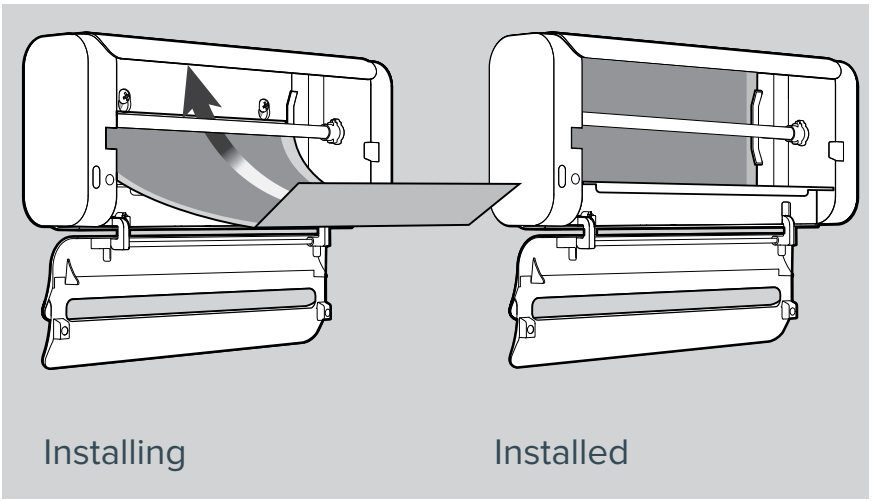

See **Section 14** for more details on lamp removal

SECURE WITH ALL 3x SCREWS

10. Preparing the Glue Board

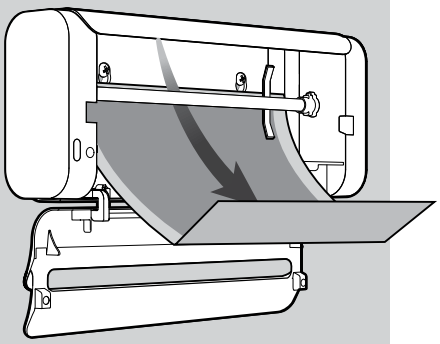

11. Installing & Removing the Glue Board

Installing

Installed

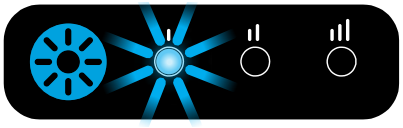

Removing

12. Lumnia Performance Table

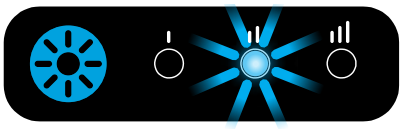

Power Setting	Low (I)	Medium (II)	High (III)
Ambient Light Level (LUX)	< 300	300 - 750	750 +
Equivalent Environment	Warehouses, Home, Theatres, Archives	Normal Office Work, PC Work, Study Library, Show Rooms, Laboratories	Supermarkets, Areas near windows

13. Light Output Settings

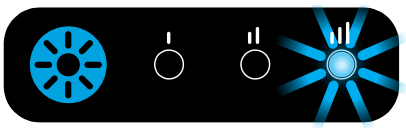

I = Low Light Output

II = Medium Light Output

III = High Light Output

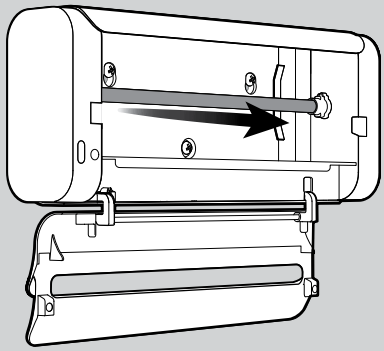

14. Removing and Replacing the UV - LED Lamp

For lamp identification refer to reference number on Lamp. Only Lamps specified in Section 15 - Accessories and Spares to be used with this product.

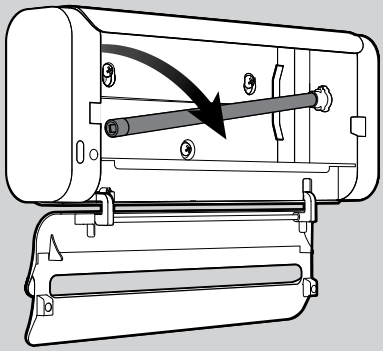

Do not touch LED when servicing, maintaining or cleaning the lamps.

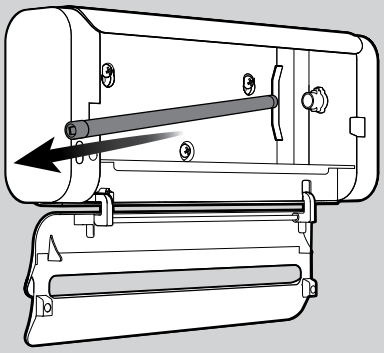

Removing UV - LED Lamp

1. Press lamp into the right hand side fitting

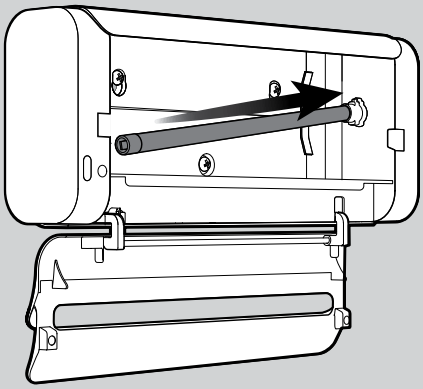

2. Release left side of lamp from fitting

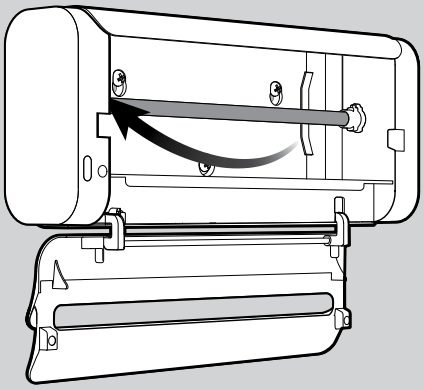

3. Remove lamp from right hand side fitting

Replacing UV - LED Lamp

1. Insert & press lamp to the right hand side fitting

2. Insert lamp into left hand side fitting

NOTE:
Ensure the lamp is pushed firmly back into the left hand fitting

15. Accessories and Spares

For a list of the Lumnia accessories and spares see below:

Accessories:
- Hanging Bracket Kit: 304790
- Stand SKU: 304868

Spares:
- UV-LED Lamp: 304816
- Glue Board (Pack of 10 Black): 304858
- Glue Board (Pack of 10 White): 304857

- Lumnia Power Lead (UK Connection): 304781
- Lumnia Power Lead (EU Connection): 304782
- Lumnia Power Lead (EU Contour Connection): 304803
- Lumnia Power Lead (AU Connection): 304783
- Lumnia Power Lead (SA Connection): 304784
- Lumnia Power Lead (JP Connection): 304785
- Lumnia Power Lead (US Connection): 304786
- Lumnia Power Lead (CN Connection): 304783

16. Product Disposal

The Lumnia Standard is classified as electrical or electronic equipment, according to the Waste of Electrical and Electronic Equipment (WEEE) directive. Do not dispose of this product with other household or commercial waste. Contact the agent who sold the product for recycling advice.

The product described in this manual is subject to continuous development and improvement and Rentokil reserve the right to alter the specification or design without prior notice. Rentokil cannot accept any liability for any loss or damage arising from the use of any information contained within this manual, or from any incorrect use of the product described herein. Rentokil can accept no liability whatsoever for any loss or damage arising from the product being serviced maintained or repaired by unauthorised personnel.

17. Specification

Parameter	Value
Power Supply	100 to 240V AC
Power Classification	Class II ⧈ When servicing, use only identical replacement parts.
Power Consumption	12W
Replacement Tubes	Rentokil type SKU: 304816
Size	W: 550mm H: 240mm D: 155mm
Weight: • Boxed Unit • Unit including Lamps & Glueboard	 3.3 kg (boxed) 2.1 kg

Rentokil

Why Choose Rentokil?

Rentokil is the global leader in pest control, bringing expert, reliable and professional service to commericial and residential customers in over 60 countries worldwide. As the experts in pest control, we work closely with you to:

Give you peace of mind.

With over 12,000 qualified technicians worldwide, we have extensive experience across a wide range of industry sectors. Our experts work proactively in partnership with you to minimise the threat of pest infestations in your business.

Safeguard your reputation

We take a dual approach, incorporating both preventative and responsive strategies to enhance protection for your business through a consistent, continuous pest control programme.

Neither the whole nor any part of the information described in this manual, nor the product therein described, may be adapted or reproduced in any form without prior written approval of Rentokil.

The product described in this manual is subject to continuous development and improvement and Rentokil reserve the right to alter the specification or design without prior notice. Rentokil cannot accept any liability for any loss or damage arising from the use of any information contained within this manual, or from any incorrect use of the product described herein. Rentokil can accept no liability whatsoever for any loss or damage arising from the product being serviced maintained or repaired by unauthorised personnel.
