

# WHY ARE TERMITES OFTEN FOUND TOO LATE?

**2 out of 5** Malaysians experienced termite infestation

**29%** are unable to identify based on the signs

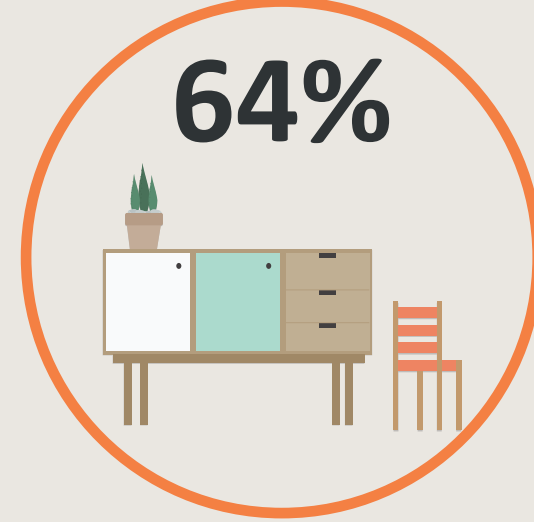

Nearly **50%** do not practise regular termite inspection

Termites cause about **RM40 million** in property damage

## AREAS PRONE TO TERMITE ATTACK

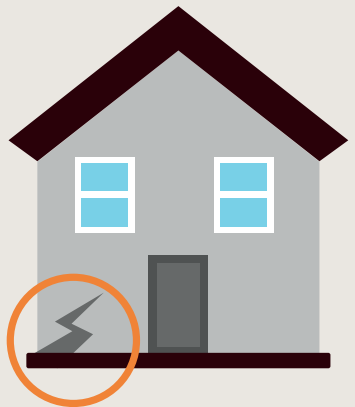

Averagely spent **RM 3-5k** on termite treatment and damage repairs

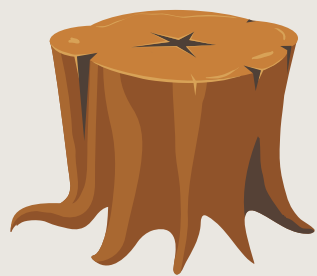

## WHAT MAKES YOUR HOME A TERMITE MAGNET?

You could be unknowingly attracting termites to your home! Are these familiar to you?

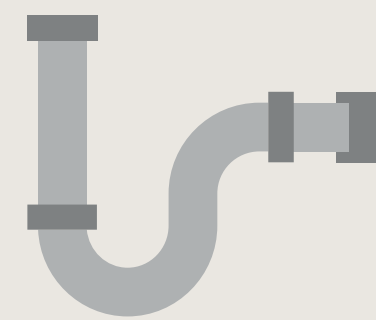

Leaving foundation and floor cracks unattended

Letting tree stumps decay in the garden

Leaning cardboard boxes against the walls

Clogging drain and gutter with debris

Unconcerned about roof or ceiling leaking

## RENTOKIL TERMITE CONTROL SOLUTIONS

### IF THERE IS NO ACTIVE TERMITES

- **INTENSIVE TERMITE INSPECTION**  
Efficiently identifies termite activities behind walls.
- **MONITORING**  
Detects active termite activity in your property.

### IF YOU HAVE ACTIVE TERMITES

- **BAITING TREATMENT**  
Feeds termites with active ingredient to stop their growth.
- **LIQUID TERMITICIDE TREATMENT**  
Creates a treated zone in between the soil and property structure.
