

Mosquito are known to spread vector borne diseases such as Dengue and Malaria. Existed since dinosaur era, mosquitoes have been cited as the world's deadliest animal.

INTERESTING MOSQUITO FACTS

Mosquitoes existed since the **Triassic Period** which was 400 million years ago ⁽¹⁾

In the Philippines, there are about **279 species** and subspecies of mosquitoes ⁽⁸⁾

Female mosquito lays about **30-300 eggs** at one time ⁽³⁾

Only female mosquitoes **feed on blood** because the protein in blood help her eggs develop ⁽²⁾

Male mosquitoes are slightly **smaller in size** compared to female mosquitoes ⁽⁴⁾

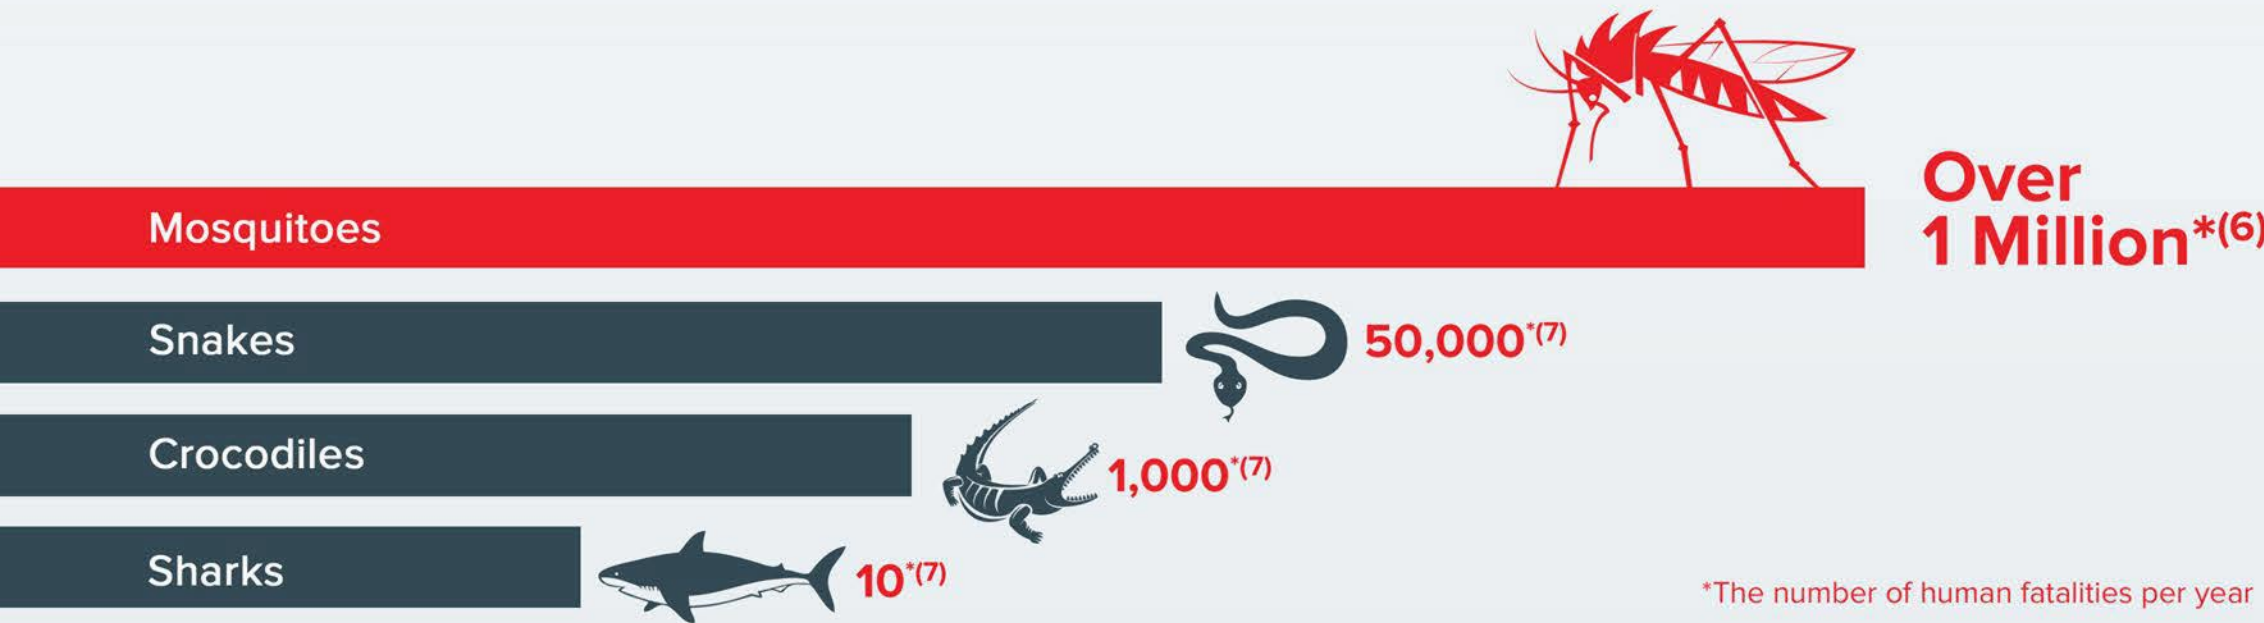

Younger age groups particularly 5 to 14 years old are vulnerable with highest proportion of dengue cases ⁽⁹⁾

Mosquitoes are **attracted to heat**, find lactic acid alluring & tend to bite people who had just exercised ⁽¹⁾

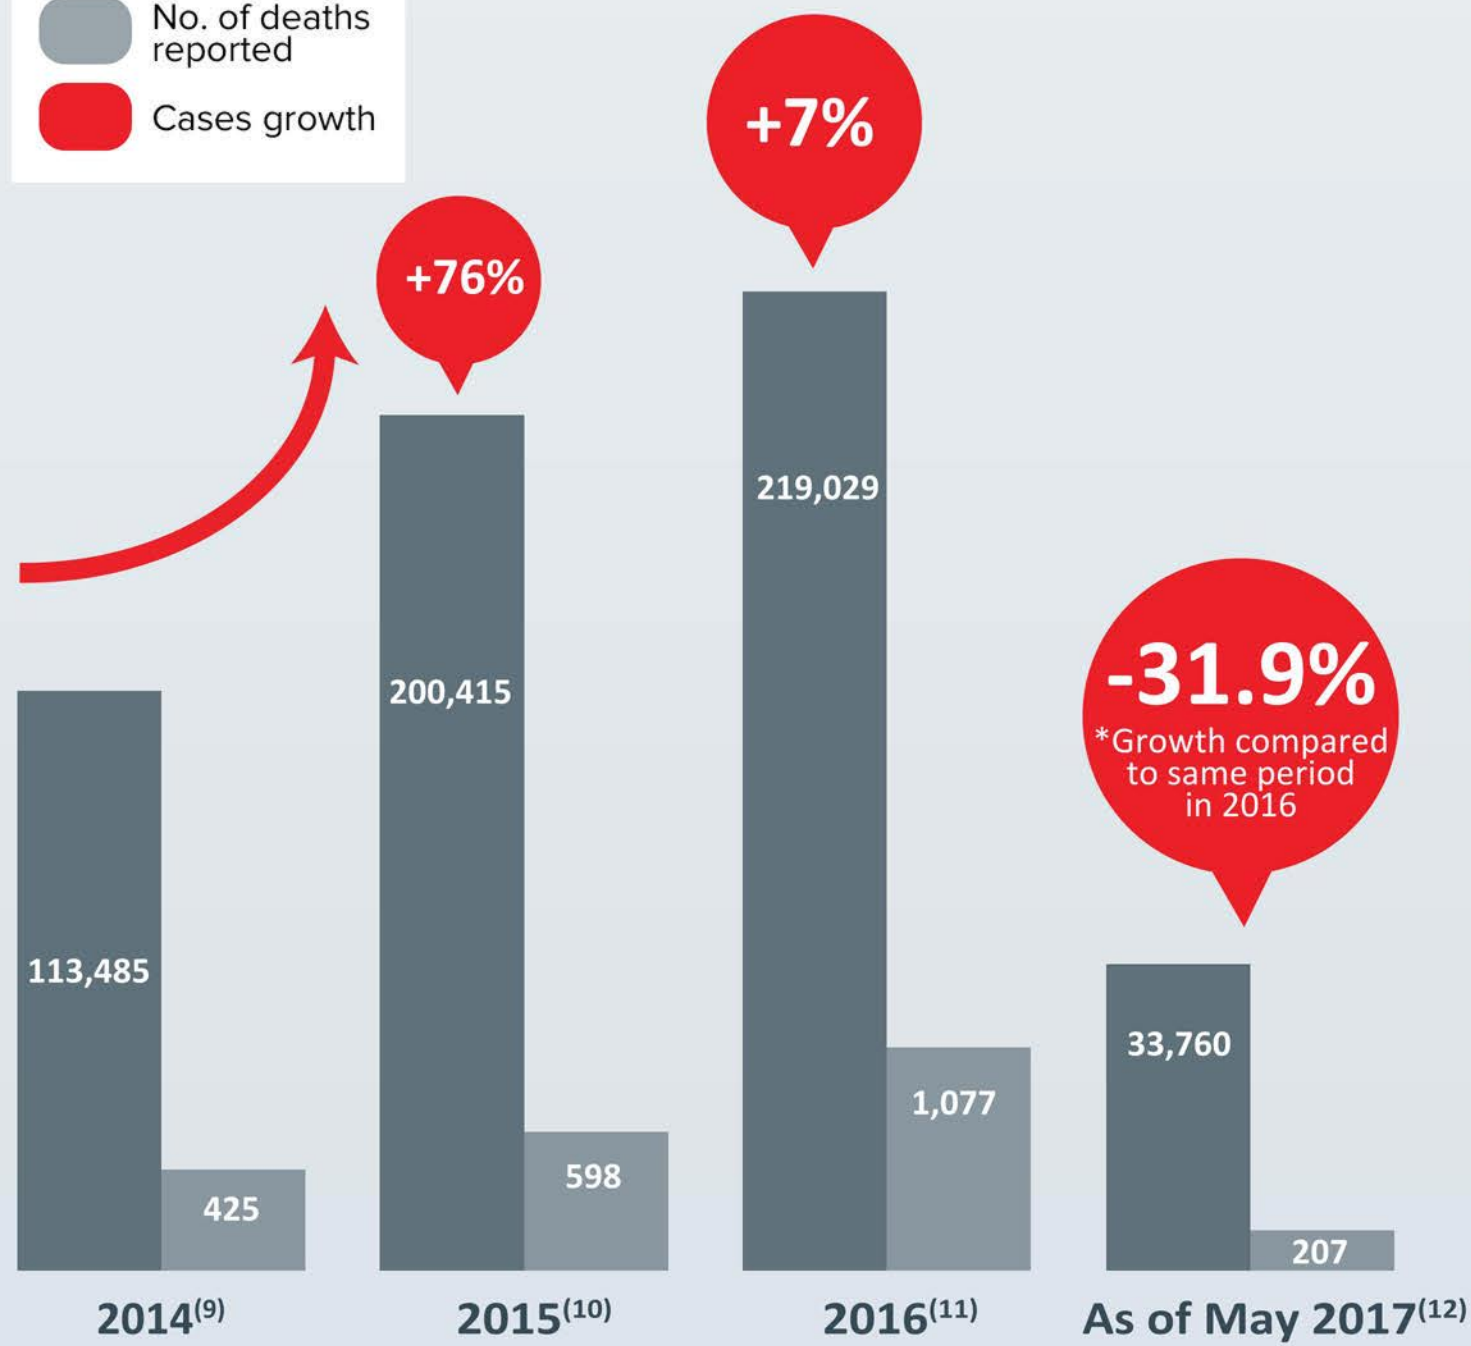

Mosquitoes are the **deadliest animal** on earth causing more deaths compared to any other animals ⁽⁵⁾

NUMBER OF DENGUE CASES AND DEATH TOLLS IN THE PHILIPPINES (2014 - 6TH MAY 2017)⁽⁹⁻¹²⁾

Legend:
 - No. of cases reported (Dark Grey)
 - No. of deaths reported (Light Grey)
 - Cases growth (Red)

DOH still considers dengue as a high-profile and an ongoing public health concern. ⁽¹⁴⁾

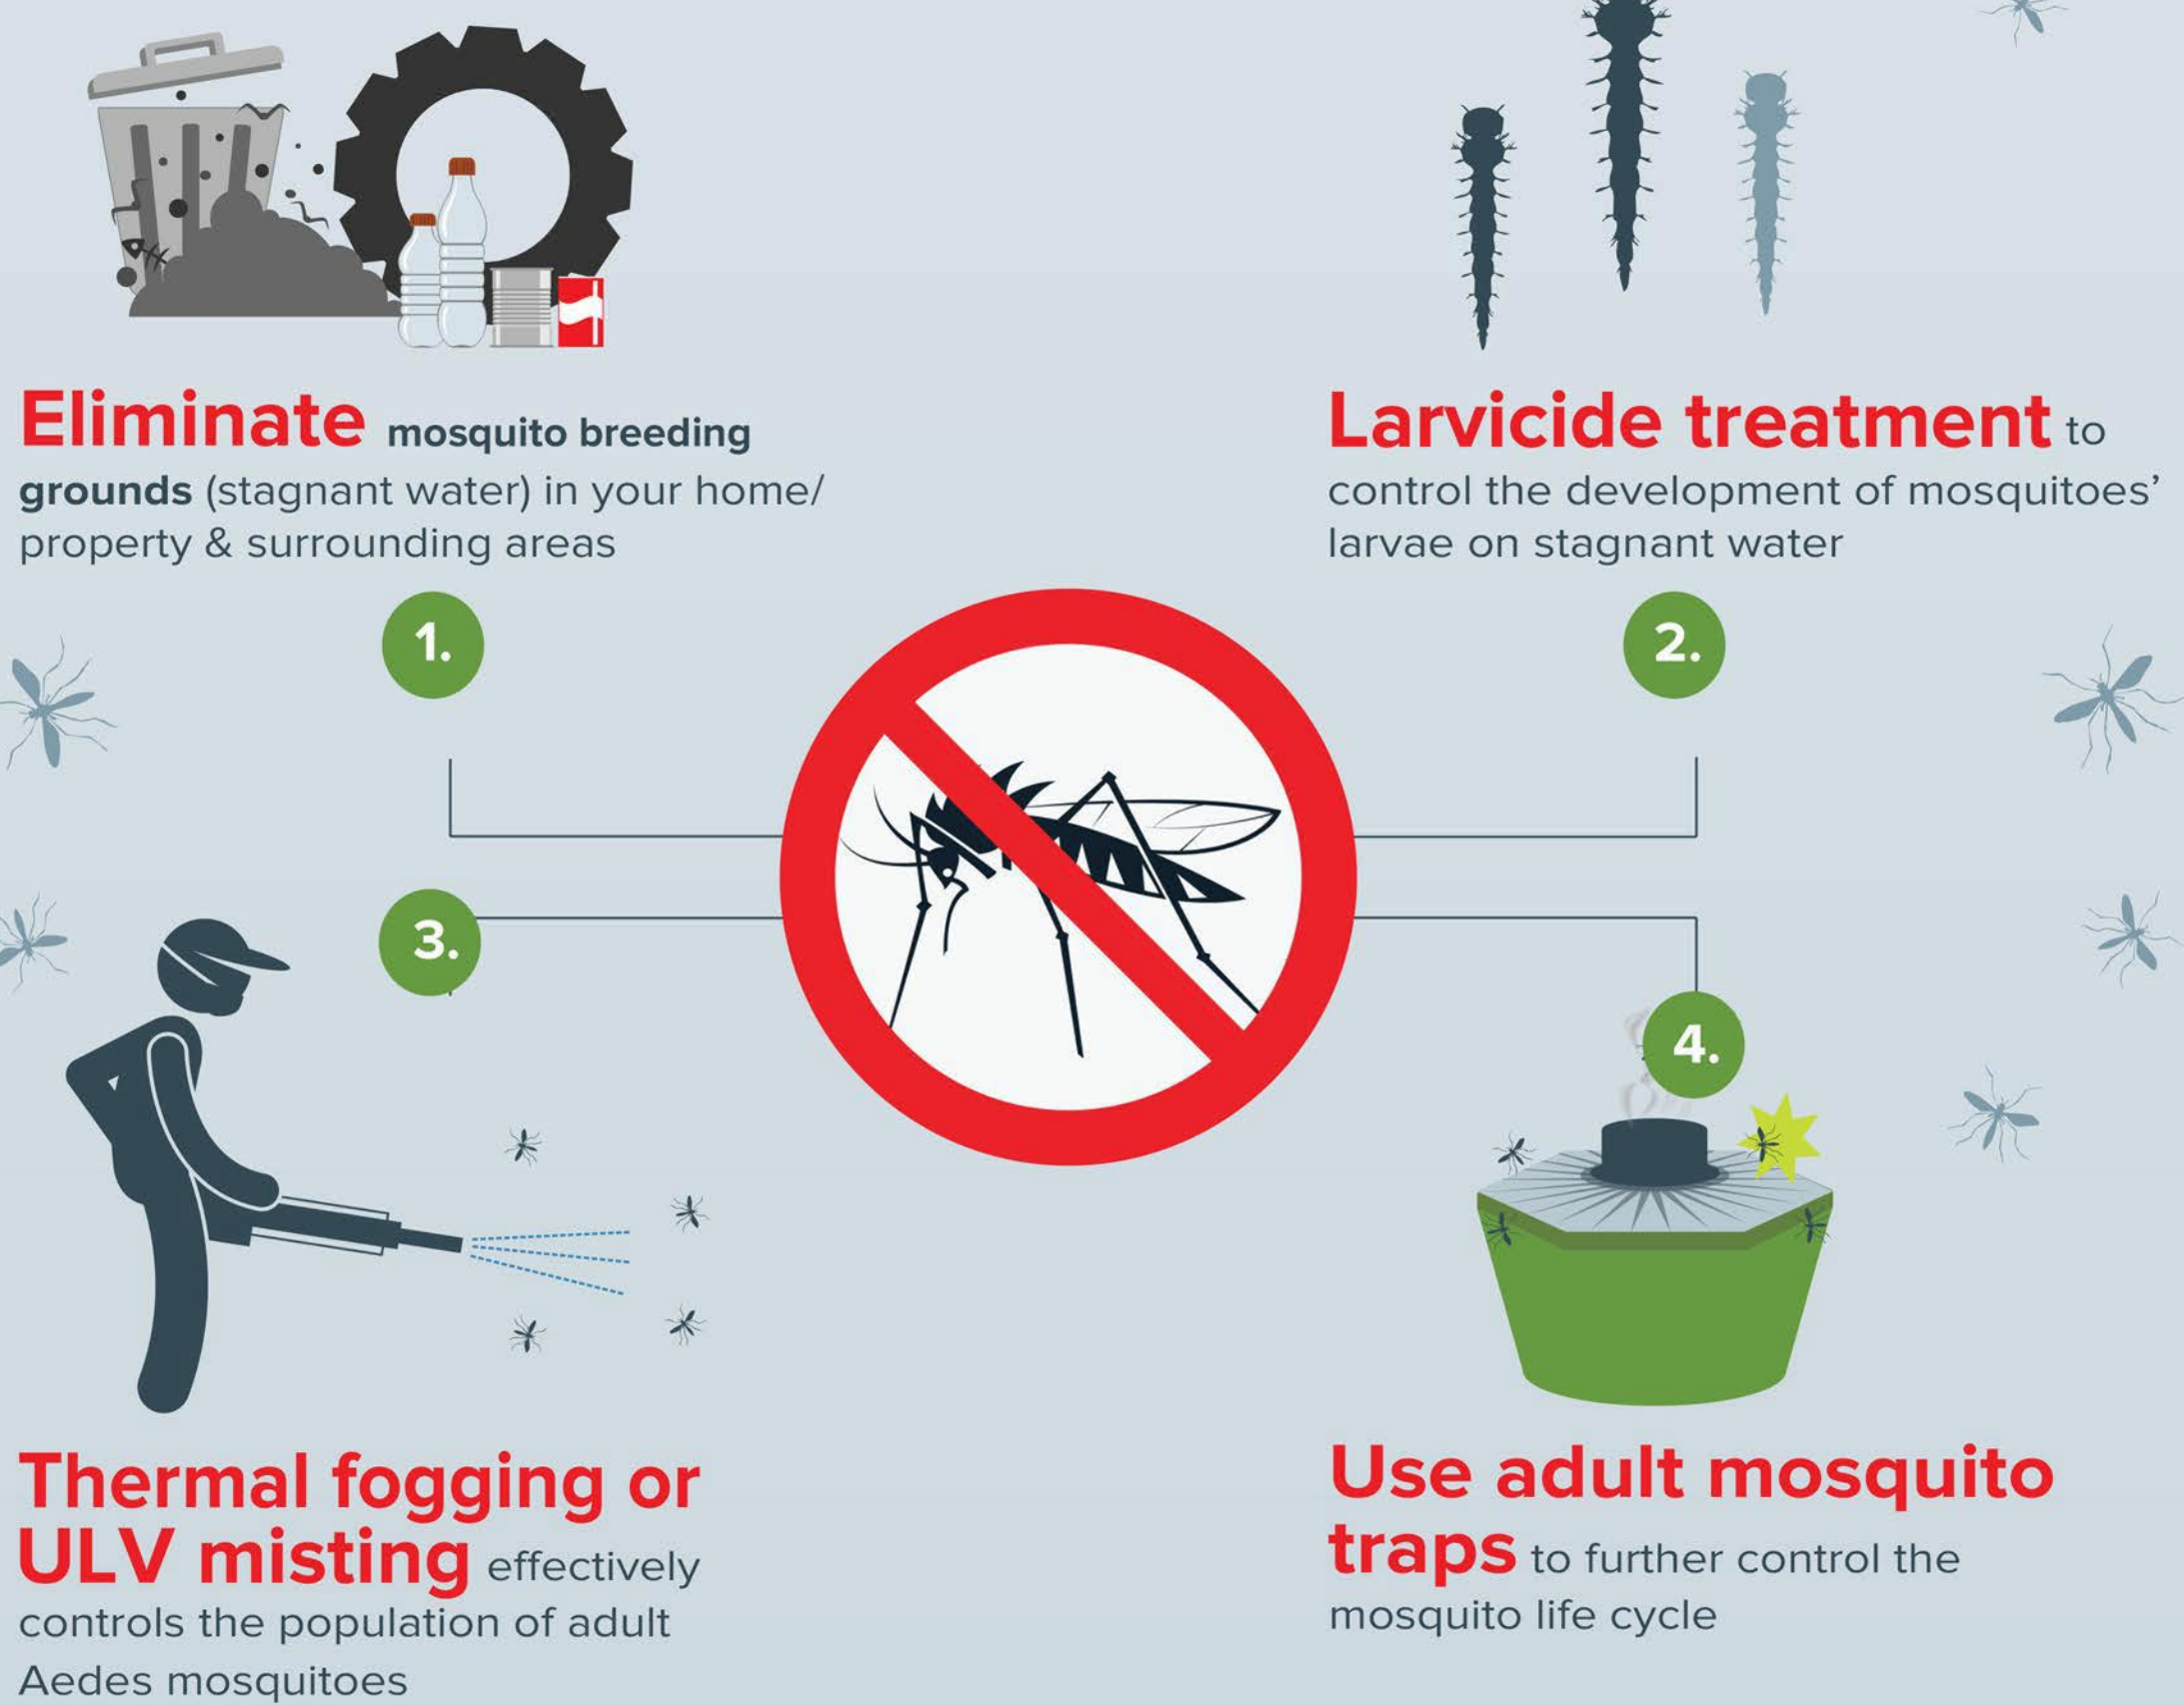

Philippines ranked first in highest dengue incidence in the Western pacific from 2013 to 2016. ⁽¹³⁾

DID YOU KNOW?
 Dengue fever is caused by a virus transmitted by Aedes mosquitoes. They are distinguished by their black and white markings.

INTEGRATED MOSQUITO MANAGEMENT (IMM)

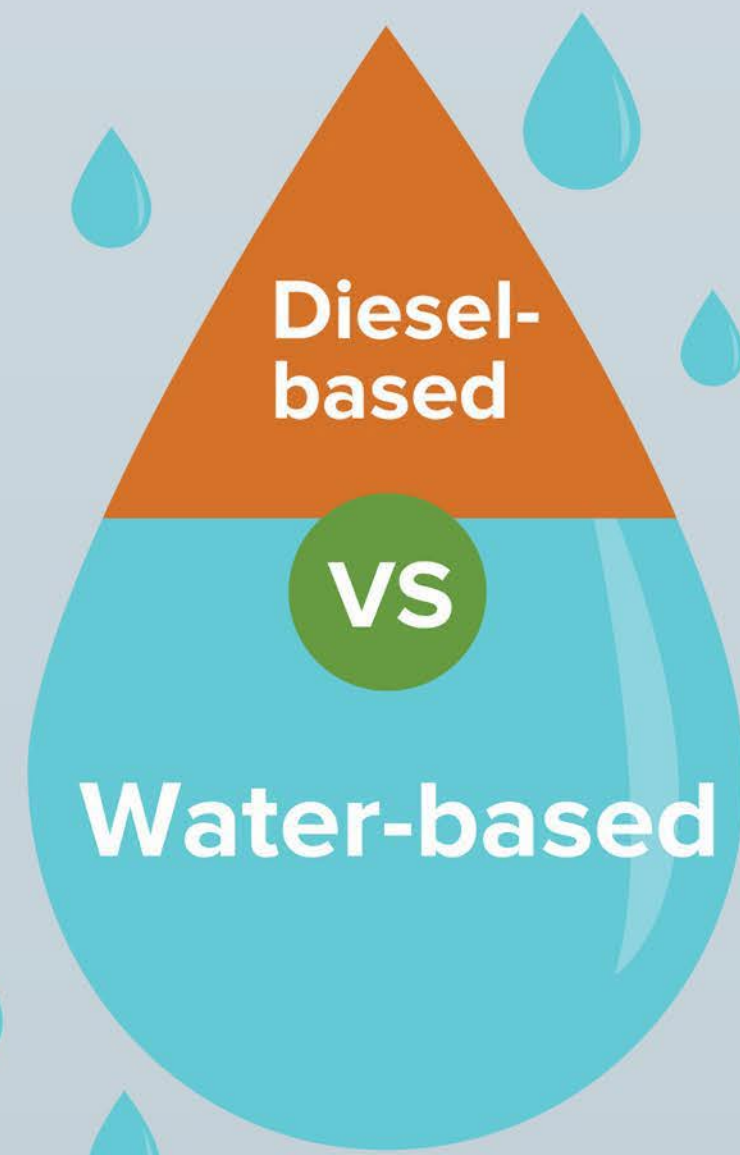

4 STEPS TO EFFECTIVELY COMBAT AEADES MOSQUITOES TOGETHER!

IMM is a program which involves the following 4 steps that can help fight against the Aedes mosquitoes targeted at each life cycle.

DO YOU KNOW WHY WATER-BASED THERMAL FOGGING IS RECOMMENDED?

- It is equally **effective, safer and more environmental friendly**
- Water carrier does not produce carbon emission. It **reduces air pollution** especially during haze crisis
- Reduces flash fire and explosion risks** from diesel-based thermal fogging
- Minimal smoke environment** for improved safety, especially towards the passing motorists. Lesser smoke = Better visibility
- Absence of unpleasant **diesel smell**
- Reduces risk of slip** and fall from oily surfaces to pedestrians and motorists

We are committed to **protecting your home and family** from Dengue with regular checks and safe mosquito control solutions.
