

Besides causing huge financial losses, termites infestation can pose potential threat to your safety. Learn more about the impacts and what you can do to protect your home and family from this nasty pest.

NEGATIVE IMPACT OF TERMITE INFESTATION

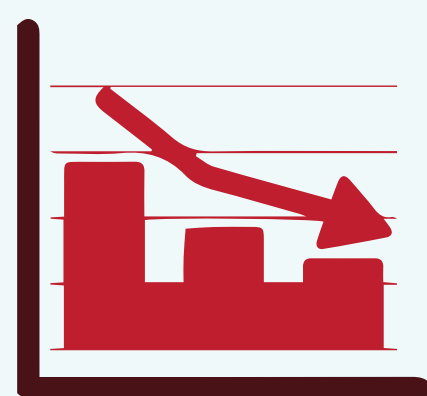

A THREAT TO OUR SAFETY

Termite can cause serious damage to the structural integrity of your home, putting you and your family's safety at risk.⁽¹⁾

DEVALUE PROPERTY VALUE

Termite infestation can depreciate your property value by more than 25%.⁽¹⁾

FINANCIAL LOSS

Termites cause an estimated RM40 million of structural damages in Malaysia every year.⁽¹⁾

PROPERTY DAMAGE

Incurs extra costs to homeowners as most home insurance policies do not cover termite damage on home properties.⁽¹⁾

DISADVANTAGES OF DIY TERMITE SOLUTIONS

HEALTH RISK

Incorrect application of termiticides can be harmful.⁽²⁾

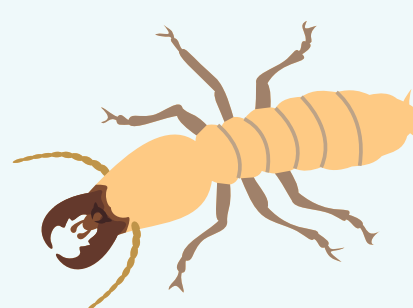

EXTRA COST INCURRED

May drive termites to forage other areas of your home, resulting in further damages.⁽²⁾

FURTHER DAMAGES AND REPAIRS

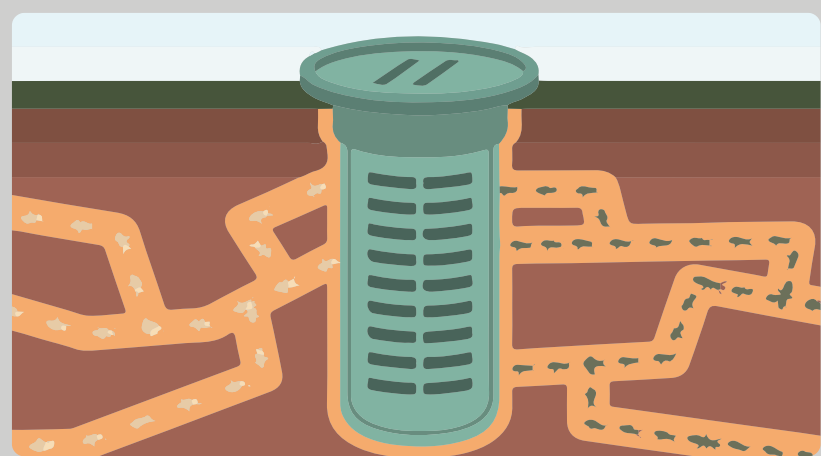

DIY products may not treat the root cause of the infestation and will lead to prolonged damages and incur costlier repairs.⁽²⁾

INEFFECTIVE

DIY treatment may not work as different species would require different types of solutions.⁽²⁾

RENTOKIL'S TERMITE SOLUTIONS

MONITORING & BAITING

- Involves the use of **unobtrusive termite monitoring stations** to detect termite activity.⁽³⁾
- Active ingredient in the bait inhibits termite growth, resulting in a **decline of termites** and eventually the **colony collapses**.⁽³⁾

LIQUID TERMITICIDE

- Establishes a **treated zone around the perimeter** of your premises.⁽³⁾
- Liquid termiticides are injected into the ground to **form a barrier between the soil and building structure**.⁽³⁾
