

Rentokil

The Experts in Pest Control

A close-up, angled view of the Rentokil Lumnia Slim insect light trap. The device is dark grey or black with a sleek, modern design. A horizontal strip of five small, glowing blue LEDs is visible along the top edge. On the left side, there is a circular blue light and a small, white, rectangular component. The background is a solid, deep blue color.

Lumnia Slim

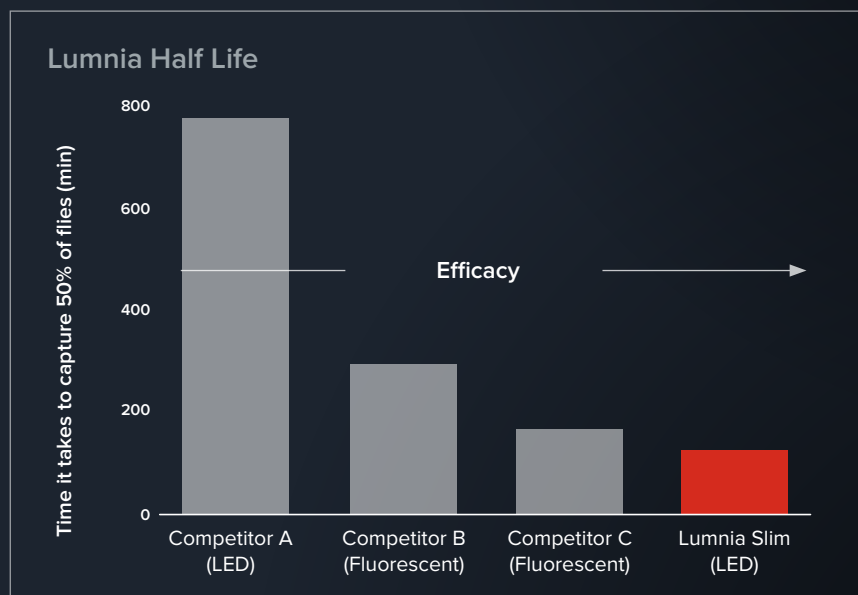

One of the most stylish and discreet
insect light traps for use in front-of-house
locations

Lumnia Slim is the latest addition to Rentokil's Lumnia range. It's a highly effective, elegant and discreet solution that has been specially designed for customer-facing locations such as cafes, bars, restaurants and reception areas.

The unit's modern exterior holds a powerful 10W LED lamp that draws in flying insects while using a very low amount of energy. This makes the Lumnia Slim cost-effective and environmentally friendly.

This insect light trap also has an effective glueboard inside and is safe and easy to service. By discreetly covering the insects, the design prevents unhygienic insect fragments being blown out of the unit.

Lumnia Slim can be mounted on a wall or installed on a flat surface and, because it's so slender and unobtrusive, you won't know it's there at all.

- It's highly effective**
 It eliminates the nuisance caused by flying insects, attracting them from a much greater distance.
- It's cost-effective and environmentally friendly**
 The long-life LED bulbs use less energy, thereby lowering your running costs and reducing your carbon footprint.
- It's aesthetically pleasing**
 It's an ingenious, stylish design that comes in a range of colours, so it's now easier to complement your brand and interior colour schemes.
- It's designed for convenience**
 It's a small, discreet, versatile unit that packs a powerful punch, so it can be used in tight spaces, on walls or flat surfaces, and in public areas.
- It's safe and hygienic**
 No pesticides are used, insect fragments are avoided and it's quick and easy to service.
- It provides peace of mind**
 It complies with legal and health and safety requirements.
